

Tecalemit Solutions

Diesel fuel nozzles and meter

We can t
make your
vehicle use
less diesel,
just easier to fill

Managing diesel fuel on your property has always been a hassle, even more so now with the Commonwealth Government's Diesel Fuel Rebate meaning recording the fuel used day-by-day and vehicle-by-vehicle may be required. Tecalemit's diesel fuel dispensers and new fuel meter make your job a whole lot easier.

TECGRAVFUEL

Make managing your Diesel Fuel Rebate records easy using the TECGRAVFUEL Gravity Fed Fuel Meter.

- Can be screwed onto the outlet of your gravity tank or attached to your TECGRAVHOSE
- Accurately measures quantity of fuel dispensed
- Assists in stock control
- Reset knobs allows meter to be zeroed before each use
- Totaliser shows total amount of fuel dispensed over time
- Useful for determining fuel consumption and vehicle efficiency
- Compact, hardy construction
- Mechanical operation means there are no batteries to run flat
- Flow rate of up to 80L per minute

TECAUTOSHUTOFF Nozzle

Improve the safety of your battery operated pumps with an auto-shut off nozzle.

- Bowser-type dispensing nozzle
- Senses fuel level and automatically shuts off when tank is full
- Reduces spillage and waste
- Can be used with the TECDRUM Pump or the TECBAT Kit

TECGRAVHOSE (shown with Gravity Fed Fuel Meter)

The ideal attachment to your primary storage.

- Can be screwed onto the outlet of your gravity tank
- Bowser-type dispensing nozzle gives greater control
- Simply squeeze the trigger to use
- Lockable valve helps prevent theft of your diesel and improves storage safety
- Can be used with the TECGRAVFUEL meter as shown
- Kit includes hose, dispensing nozzle and lockable 1" ball valve (does not include meter)

TECDRUM PUMP (shown with Gravity Fed Fuel Meter)

Dispense fuel quickly and easily with the battery operated TECDRUM pump.

- Fits securely and safely onto a 205L drum
- Powered by a 12V battery
- Can be used with the TECGRAVFUEL Gravity Fed Fuel Meter as shown and the TECAUTOSHUTOFF nozzle
- Up to 40 L/min. flow rate
- Kit includes 12v pump, 3m hose nozzle and telescopic suction tube

TECBAT KIT (shown with Gravity Fed Fuel Meter)

The best solution for the farmer in the field. The fastest way to refill your farm machinery on-site.

- Transfers fuel from your mobile or demountable tank to your tractor's or harvester's tank
- Eliminates the need to drive farm machinery to where diesel is stored
- Powered by a 12V battery
- Easy to use and convenient
- Carry it with you while on the job
- Can be used with the TECGRAVFUEL Gravity Fed Fuel Meter as shown and the TECAUTOSHUTOFF nozzle
- Up to 40 L/min.
- Kit includes 3m suction hose and strainer, 4m delivery hose, 12v pump, 1 nozzle

TECFKI HOSE FILTER KIT (for Rotary Drum Pumps)

The simplest way to dispense fuel whilst ensuring it remains clean and pure.

- Fits securely and safely onto a 205L drum of fuel
- Filter removes water and contaminants from diesel fuel
- The ideal option in remote areas where theft or the weather are concerns
- To be used with the TEC50032 or LP32 Rotary Drum Pumps
- Up to 100 L/min.
- Pump and hose kit sold separately
